

Jobster Theme Installation

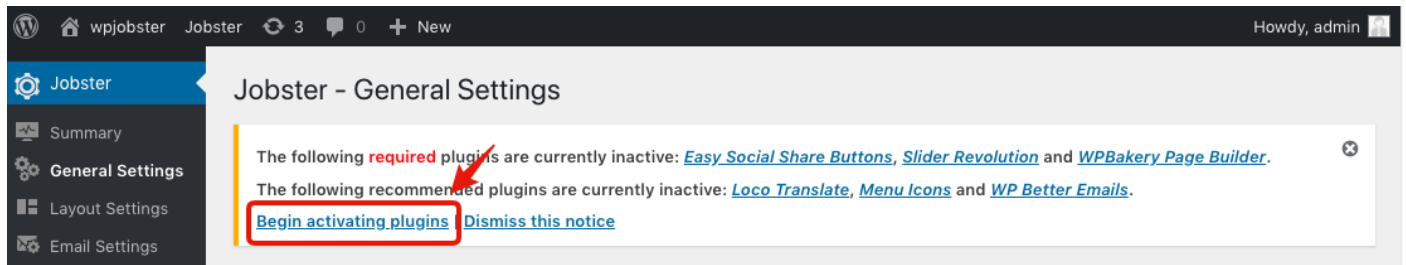

1. Install WordPress
2. Upload, Install and Activate Jobster Theme (Appearance > Themes)
3. Fill in your License Key (Jobster > General Settings), then click “Save Options” at the bottom of the page
4. Activate your license (Jobster > General Settings) and make sure that your license type is displayed afterwards.
If it isn't, just click “Deactivate” then “Activate” again. (*Screenshot 1*)
5. Activate the required plugins. Not all of them are required, only those in red are enough for this step. (*Screenshot 2*)
6. Import demo content (*Screenshot 3*)
